

The background features a complex, abstract pattern of thin, overlapping lines in shades of yellow and orange. These lines flow and curve across the page, creating a sense of movement and depth. The colors transition from a bright yellow at the top to a deeper orange and red at the bottom, with some areas appearing more saturated than others.

**Torensluis bridge**  
Completed in the mid-17th century and measuring around 42 metres (138ft) in width, the Torensluis ("tower lock") is the city's widest bridge – and one of its oldest. The tower size – and the name – is down to the tower that originally stood on the site until its demolition in the mid-19th century, the foundations of which are still visible both in the piling of the bridge itself and in the diagenes below.
